# VOLUME 68 • SUBJECT INDEX

**accelerometers,** An ambulatory dyskinesia monitor, **196**
**acoustic blink reflex,** Fear conditioned potentiation of the acoustic blink reflex in patients with cerebellar lesions, **358**
**acute disseminated encephalitis,** Acute multifocal cerebral white matter lesions during transfer factor therapy: *letter,* **114**
Postmalaria neurological syndrome: a case of acute disseminated encephalomyelitis?: *letter,* **388**
**acute stroke,** Neurological emergencies: acute stroke: *review,* **277**
**addiction,** Hedonistic homeostatic dysregulation in patients with Parkinson's disease on dopamine replacement therapies, **423**
**addiction disorders,** A window on the role of dopamine in addiction disorders: *editorial,* **404**
**adrenoleukodystrophy,** Radiologically selective visual pathway involvement in adult onset cerebral adrenoleukodystrophy: *letter,* **249**
**adults,** Link between the CSF shunt and achievement in adults with spina bifida: *correspondence,* **800**
**aged,** Natural history of elderly patients with asymptomatic meningiomas, **25**
**ageusia,** Hemiageusia from an ipsilateral multiple sclerosis plaque at the midpontine tegmentum: *letter,* **796**
**aggravation,** Factors that ameliorate or aggravate spasmodic torticollis, **227**
**aggression,** Reduction of frontal neocortical grey matter associated with affective aggression in patients with temporal lobe epilepsy: an objective voxel by voxel analysis of automatically segmented MRI, **162**
**alcohol,** Smoking, drinking, and incident cognitive impairment: a cohort community based study included in the Gospel Oak project, **622**
Validity of carbohydrate deficient transferrin and other markers as diagnostic aids in the detection of alcohol related seizures, **342**
**alcoholism,** Group and case study of the dysexecutive syndrome in alcoholism without amnesia, **731**
**alexia,** Intact verbal description of letters with diminished awareness of their forms, **782**
**alien hand,** Alien hand sign in Creutzfeldt-Jakob disease: *letter,* **103**
**alien hand syndrome,** Subjective experience, involuntary movement, and posterior alien hand syndrome, **83**
**alternative donors,** Increased incidence of neurological complications in patients receiving an allogenic bone marrow transplantation from alternative donors, **36**
**Alzheimer's disease,** Alterations of muscarinic acetylcholine receptor subypes in diffuse Lewy body disease: relation to Alzheimer's disease: *letter,* **253**
Alzheimer's disease, **348**
Alzheimer's disease comorbidity in normal pressure hydrocephalus: prevalence and shunt response, **778**
Apolipoprotein E genotype and hippocampal asymmetry in Alzheimer's disease: a volumetric MRI study, **93**
Cerebral white matter lesions are not associated with apoE genotype but with age and female sex in Alzheimer's disease, **653**
Inverse relation between Braak stage and cerebrovascular pathology in Alzheimer predominant dementia: *correspondence,* **799**
Novel presenilin-1 mutation with widespread cortical amyloid deposition but limited cerebral amyloid angiopathy, **220**
**ambulatory electroencephalography and electrocardiography,** Epileptic cardiac asystole: *letter,* **108**
**ambulatory monitoring,** An ambulatory dyskinesia monitor, **196**
**amelioration,** Factors that ameliorate or aggravate spasmodic torticollis, **227**
**amyloid angiopathy,** Novel presenilin-1 mutation with widespread cortical amyloid deposition but limited cerebral amyloid angiopathy, **220**
**amyloidosis,** Myopathy due to primary systemic amyloidosis, **385**
**amyotrophic lateral sclerosis,** Atypical form of amyotrophic lateral sclerosis: a new term to define a previously well known form of ALS: *letter,* **117**
**anaphylaxis,** Anaphylactoid reaction to methylprenisolone. Is it surprising when pharmacological and immune effects of a drug differ?: *letter,* **255**
**aneurysm,** Functional outcome and quality of life after angiography and operation for unruptured intracranial aneurysms, **571**
**aneurysmal subarachnoid haemorrhage,** Complications and outcome in patients with aneurysmal subarachnoid haemorrhage: a prospective hospital based cohort study in The Netherlands, **337**
**angiography,** Functional outcome and quality of life after angiography and operation for unruptured intracranial aneurysms, **571**
**anorectal,** Manometric investigation of anorectal function in early and late stage Parkinson's disease, **768**
**anosognosia,** Anosognosia and mania associated with right thalamic haemorrhage: *letter,* **107**
Illusory limb movements in anosognosia for hemiplegia, **511**
**anticardiolipin antibodies,** Idiopathic intracranial hypertension and anticardiolipin antibodies, **379**
Transverse myelopathy in the antiphospholipid antibody syndrome: pinworm infestation as a trigger?: *letter,* **249**
**anti-ganglioside antibodies,** Distinctions between critical illness polyneuropathy and axonal Guillain- Barré syndrome: *correspondence,* **397**
**antiganglioside antibody,** Isolated absence of F waves and proximal axonal dysfunction in Guillain-Barré syndrome with antiganglioside antibodies, **191**
**antineuronal Ab,** Treatment of paraneoplastic neurological syndromes with antineuronal antibodies (Anti-Hu, Anti-Yo) with a combination of immunoglobulins, cyclophosphamide, and methylprednisolone, **479**
**anxiety,** Emotional outcomes after stroke: factors associated with poor outcome, **47**
**apathy,** Disruption of attention to novel events after frontal lobe injury in humans, **18**
**ApoE,** Apolipoprotein E genotype and hippocampal asymmetry in Alzheimer's disease: a volumetric MRI study, **93**
**apolipoprotein E,** Apolipoprotein E genotype and hippocampal asymmetry in Alzheimer's disease: a volumetric MRI study, **93**
Cerebral white matter lesions are not associated with apoE genotype but with age and female sex in Alzheimer's disease, **653**
No association between the APOE ε4 allele and outcome and susceptibility in primary progressive multiple sclerosis: *letter,* **532**
**apomorphine,** Hedonistic homeostatic dysregulation in patients with Parkinson's disease on dopamine replacement therapies, **423**
**apraxia,** Diencephalic amnesia and apraxia after left thalamic infarction: *letter,* **248**
Factitious clock drawing and constructional apraxia: *letter,* **106**
**arteriovenous fistula,** Recanalisation of spinal dural arteriovenous fistula after successful embolisation, **792**
**arteriovenous malformation,** Results of radiosurgery for brain stem arteriovenous malformations, **563**
**arteriovenous malformations,** How effective is radiosurgery for arteriovenous malformations?: *commentary,* **548**
Oncofetal matrix glycoproteins in cerebral arteriovenous malformations and neighbouring vessels: *letter,* **101**
**aseptic meningitis,** Aseptic meningitis after posterior fossa surgery treated by pseudomeningocele closure, **218**
**asomatognosia,** Illusory limb movements in anosognosia for hemiplegia, **511**
**Asperger's syndrome,** Fahr's disease and Asperger's syndrome in a patient with primary hypoparathyroidism: *letter,* **115**
**Aspergillus infection,** Invasive aspergillosis in a patient with MELAS syndrome, **765**
**association,** No evidence for the involvement of interleukin 2 or the immunoglobulin heavy chain gene cluster in determining genetic susceptibility to multiple sclerosis: *letter,* **679**
**associative learning,** Fear conditioned potentiation of the acoustic blink reflex in patients with cerebellar lesions, **358**
**asthma,** Acute myelitis after asthma attacks with onset after puberty, **665**
**asymmetry,** Apolipoprotein E genotype and hippocampal asymmetry in Alzheimer's disease: a volumetric MRI study, **93**
**asymptomatic meningioma,** Natural history of elderly patients with asymptomatic meningiomas, **25**
**ataxia,** Postmortem study of ataxia with retinitis pigmentosa by mutation of the α-tocopherol transfer protein gene, **521**
**atlas-axis ligaments,** Hypertrophic atlantoaxial ligaments: an unusual cause of compression of the upper spinal cord: *letter,* **116**
**atopy,** Acute myelitis after asthma attacks with onset after puberty, **665**
**attention,** Disruption of attention to novel events after frontal lobe injury in humans, **18**
Reversible neuropsychological deficits after mild traumatic brain injury, **761**
**attention-deficit hyperactivity disorder,** Adult onset tic disorders, **738**
**autism,** Fahr's disease and Asperger's syndrome in a patient with primary hypoparathyroidism: *letter,* **115**
**autonomic dysfunction,** Urinary dysfunction and orthostatic hypotension in multiple system atrophy: which is the more common and earlier manifestation?, **65**
**autonomic epilepsy,** Status-like recurrent pilomotor seizures: case report and review of the literature, **647**
**axial symptoms,** Axial parkinsonian symptoms can be improved: the role of levodopa and bilateral subthalamic stimulation, **595**

**balance,** Stepping before standing: hip muscle function in stepping and standing balance after stroke, **458**
**Bechet's syndrome,** Behçet's syndrome may present with partial seizures: *letter,* **392**
**behavioural disturbances,** Affective behavioural disturbances in Alzheimer's disease and ischaemic vascular disease, **41**

**benign monoclonal gammopathy,** A case of inclusion body myositis with benign monoclonal gammopathy successfully responding to repeated immunoabsorption, **230**
**benzodiazepine receptors,** Atrophy of the corpus callosum associated with a decrease in cortical benzodiazepine receptor in large cerebral arterial occlusive diseases, **317**
**Bickerstaff's brainstem encephalitis,** Bickerstaff's brainstem encephalitis subsequent to *Campylobacter jejuni enteritis : letter,* **680**
**bilateral loss,** Functional recovery despite prolonged bilateral loss of somatosensory evoked potentials: report on two patients, **657**
**bilingual brain,** Pathological switching between languages after frontal lesions in a bilingual patient, **650**
**biochemical markers,** Validity of carbohydrate deficient transferrin and other markers as diagnostic aids in the detection of alcohol related seizures, **342**
**blindsight,** Intact verbal description of letters with diminished awareness of their forms, **782**
**blink reflex abnormalities,** Trigeminal sensory neuropathy: anatomico-physiological correlation: *letter,* **390**
**bone marrow transplantation,** Increased incidence of neurological complications in patients receiving an allogenic bone marrow transplantation from alternative donors, **36**
***Borrelia burgdorferi,*** Upregulation of matrix metalloproteinase-9 in the cerebrospinal fluid of patients with acute Lyme neuroborreliosis, **368**
**botulinum toxicity,** Botulinum toxin in muscle spasticity: *commentary,* **689**
**botulinum toxin,** Botulinum toxin (Dysport®) treatment of hip adductor spasticity in multiple sclerosis: a prospective, randomised, double blind, placebo controlled, dose ranging study, **707**
**brain injuries,** Resolution of disorientation and amnesia during post-traumatic amnesia, **178**
**brain injury,** Reversible neuropsychological deficits after mild traumatic brain injury, **761**
**brain stem,** Ocular microtremor (OMT): a new neurophysiological approach to multiple sclerosis, **639**
Results of radiosurgery for brain stem arteriovenous malformations, **563**
**brain tumours,** Diffusion tensor imaging demonstrates deviation of fibres in normal appearing white matter adjacent to a brain tumour, **501**

**CAG repeat expansion,** Absence of unidentified CAG repeat expansion in patients with Huntington's disease-like phenotype, **672**
***Campylobacter jejuni,*** Bickerstaff's brainstem encephalitis subsequent to *Campylobacter jejuni enteritis : letter,* **680**
**carbohydrate deficient transferrin,** Validity of carbohydrate deficient transferrin and other markers as diagnostic aids in the detection of alcohol related seizures, **342**
**cardiac arrhythmias,** Epileptic cardiac asystole: *letter,* **108**
**cardiopulmonary arrest,** Reversal sign after cardiopulmonary arrest, **525**
**carotid aneurism,** A giant carotid aneurysm preventing correct swallowing , **678**
**carotid artery disease,** Atrophy of the corpus callosum associated with a decrease in cortical benzodiazepine receptor in large cerebral arterial occlusive diseases, **317**
**carotid endarterectomy,** Spinal accessory neuropathy and internal jugular thrombosis after carotid endarterectomy: *letter,* **111**
**cat scratch disease,** Chronic inflammatory demyelinating polyneuropathy as a complication of cat scratch disease: *letter,* **797**
**celiac disease,** Recurrent peripheral neuropathy in a girl with celiac disease : *letter,* **104**
**central nervous system,** HTLV-1 and HIV infections of the central nervous system in tropical areas, **550**
Progressive dementia and gait disorder in a 78 year old woman, **526**
**central nervous system tumours,** Histological subtypes of symptomatic central nervous system tumours in Singapore, **372**
**central thalamus,** Auditory saccade impairment after central thalamus lesions, **234**
**cerebellar infarction,** Vertebral artery dissection presenting as cerebellar infarction, **98**
**cerebellum,** Fear conditioned potentiation of the acoustic blink reflex in patients with cerebellar lesions, **358**
**cerebral aneurysm,** Intraoperative microvascular Doppler ultrasonography in cerebral aneurysm surgery, **29**
**cerebral calcification,** Fahr's disease and Asperger's syndrome in a patient with primary hypoparathyroidism: *letter,* **115**
**cerebral infarction,** Cerebral infarction complicating intravenous immunoglobulin therapy in a patient with Miller Fisher syndrome, **790**
**cerebrospinal fluid outflow,** Post-traumatic hydrocephalus: influence of craniectomy on the CSF circulation: *letter,* **246**
**cerebrovascular disorders,** Atrophy of the corpus callosum associated with a decrease in cortical benzodiazepine receptor in large cerebral arterial occlusive diseases, **317**
**cerebrovascular pathology,** Inverse relation between Braak stage and cerebrovascular pathology in Alzheimer predominant dementia: *correspondence,* **799**
**cervical,** Cervical subdural haematoma, **245**
**cervical radicular vessels,** Giant cell arteritis of the cervical radicular vessels presenting with diaphragmatic weakness: *letter,* **536**
**channelopathy,** Clinical, electrophysiological, and molecular genetic studies in a new family with paramyotonia congenita, **504**
**Chiari malformation,** Arnold Chiari or "Cruveilhier Cleland Chiari" malformation, **13**
**childhood,** Recurrent peripheral neuropathy in a girl with celiac disease : *letter,* **104**
**choking,** Coughing and choking in motor neuron disease, **601**
**chorea,** Late onset levodopa responsive Huntington's disease with minimal chorea masquerading as Parkinson plus syndrome, **238**
Petroclival meningioma as a cause of ipsilateral cervicofacial dyskinesias: *letter,* **113**
**chronic inflammatory demyelinating polyneuropathy,** Chronic inflammatory demyelinating polyneuropathy as a complication of cat scratch disease: *letter,* **797**
**classification of stroke,** How well does the Oxfordshire Community Stroke Project classification predict the site and size of the infarct on brain imaging?, **558**
**clinical evaluation,** Clinical evaluation of patients with stroke is still worthwhile: *commentary,* **547**
**clinical phenotype,** New variant Creutzfeldt-Jakob disease: three case reports from Leicestershire, **375**
**clinicopathological study,** What clinical features are most useful to distinguish definite multiple system atrophy from Parkinson's disease?, **434**
**clock drawing,** Factitious clock drawing and constructional apraxia: *letter,* **106**
**cognition disorders,** Resolution of disorientation and amnesia during post-traumatic amnesia, **178**
**cognitive impairment,** Smoking, drinking, and incident cognitive impairment: a cohort community based study included in the Gospel Oak project, **622**
**cognitive performance,** Impaired cognitive performance in drug free users of recreational ecstasy (MDMA), **719**
Impaired cognitive performance in drug free users of recreational ecstasy (MDMA): *commentary,* **690**
**colour duplex flow,** Is transcranial colour Duplex flow imaging of use in selection of patients with acute stroke for thrombolysis?, **794**
**coma,** Coma in a patient with Alzheimer's disease taking low dose trazodone and ginkgo biloba: *letter,* **679**
**comparison,** Tardive and idiopathic oromandibular dystonia: a clinical comparison, **186**
**complex partial seizure,** Postictal psychosis related regional cerebral hyperperfusion: *letter,* **100**
**complications,** Complications and outcome in patients with aneurysmal subarachnoid haemorrhage: a prospective hospital based cohort study in The Netherlands, **337**
**computed tomography,** How well does the Oxfordshire Community Stroke Project classification predict the site and size of the infarct on brain imaging?, **558**
Mass volume measurement in severe head injury: accuracy and feasibility of two pragmatic methods, **14**
Pattern of premature degenerative changes of the cervical spine in patients with spasmodic torticollis and the impact on the outcome of selective peripheral denervation, **465**
Reversal sign after cardiopulmonary arrest, **525**
The notion of "warning leaks" in subarachnoid haemorrhage: are such patients in fact admitted with a rebleed?, **332**
**confabulation,** Illusory limb movements in anosognosia for hemiplegia, **511**
**confusion,** Resolution of disorientation and amnesia during post-traumatic amnesia, **178**
**consciousness,** Intact verbal description of letters with diminished awareness of their forms, **782**
**constipation,** Manometric investigation of anorectal function in early and late stage Parkinson's disease, **768**
**contrast agent,** Detection of intracranial aneurysms with unenhanced and echo contrast enhanced transcranial power Doppler, **489**
**controlled release levodopa,** The catechol-O-methyltransferase (COMT) inhibitor entacapone enhances the pharmacokinetic and clinical response to Sinemet CR in Parkinson's disease, **589**
**corpus callosum,** Atrophy of the corpus callosum associated with a decrease in cortical benzodiazepine receptor in large cerebral arterial occlusive diseases, **317**
Cystic dysplasia of the corpus callosum in interhemispheric disconnection syndrome, **676**
Neuropathological abnormalities of the corpus callosum in schizophrenia: a diffusion tensor imaging study, **242**
**corticobasal degeneration,** Corticobasal degeneration: *editorial,* **275**
Corticobasal ganglionic degeneration and/or frontotemporal dementia? A report of two overlap cases and review of literature, **304**
**corticospinal,** Modulation of single motor unit discharges using magnetic stimulation of the motor cortex in incomplete spinal cord injury, **516**
**corticosteroids,** Extraocular muscle responses to high dose intravenous methylprednisolone in myasthenia gravis, **214**
**costs,** Treatment of multiple sclerosis with interferon β: an appraisal of cost-effectiveness and quality of life, **144**

**coughing,** Coughing and choking in motor neuron disease, **601**
**craniectomy,** Post-traumatic hydrocephalus: influence of craniectomy on the CSF circulation: *letter*, **246**
**craniovertebral junction,** Hypertrophic atlantoaxial ligaments: an unusual cause of compression of the upper spinal cord: *letter*, **116**
**creatine monohydrate,** Ischaemic stroke in a sportsman who consumed MaHuang extract and creatine monohydrate for body building: *letter*, **112**
**Creutzfeldt-Jakob disease,** Alien hand sign in Creutzfeldt-Jakob disease: *letter*, **103**
Trends in mortality from sporadic Creutzfeldt-Jakob disease in France 1992–7, **787**
**critical illness polyneuropathy,** Distinctions between critical illness polyneuropathy and axonal Guillain- Barré syndrome: *correspondence*, **397**
**critical perfusion pressure,** Critical closing pressure: a valid concept?: *letter*, **120**
**Crying spells,** Crying spells as symptoms of a transient ischaemic attack: *letter*, **537**

**deep brain stimulation,** Axial parkinsonian symptoms can be improved: the role of levodopa and bilateral subthalamic stimulation, **595**
**dementia,** Affective behavioural disturbances in Alzheimer's disease and ischaemic vascular disease, **41**
Alzheimer's disease comorbidity in normal pressure hydrocephalus: prevalence and shunt response, **778**
Frontotemporal dementia and neuropsychology: the value of missing values, **726**
Inverse relation between Braak stage and cerebrovascular pathology in Alzheimer predominant dementia: *correspondence*, **799**
Progressive dementia and gait disorder in a 78 year old woman, **526**
Smoking, drinking, and incident cognitive impairment: a cohort community based study included in the Gospel Oak project, **622**
**demyelinating optic neuritis,** Recovery from optic neuritis is associated with a change in the distribution of cerebral response to visual stimulation: a functional magnetic resonance imaging study, **441**
**depression,** Emotional outcomes after stroke: factors associated with poor outcome, **47**
**developing countries,** Neurocysticercosis and epilepsy in developing countries, **137**
**Devic's syndrome,** Devic's neuromyelitis optica and HIV-1 infection: *letter*, **795**
**diabetes,** Frataxin point mutations in two patients with Friedreich's ataxia and unusual clinical features, **661**
**dialysable leucocyte extract,** Acute multifocal cerebral white matter lesions during transfer factor therapy: *letter*, **114**
**diaphragmatic weakness,** Giant cell arteritis of the cervical radicular vessels presenting with diaphragmatic weakness: *letter*, **536**
**diencephalic amnesia,** Diencephalic amnesia and apraxia after left thalamic infarction: *letter*, **248**
**differential diagnosis,** What clinical features are most useful to distinguish definite multiple system atrophy from Parkinson's disease?, **434**
**diffusion tensor imaging,** Diffusion tensor imaging demonstrates deviation of fibres in normal appearing white matter adjacent to a brain tumour, **501**
Neuropathological abnormalities of the corpus callosum in schizophrenia: a diffusion tensor imaging study, **242**
**direct facilitatory effect,** Extraocular muscle responses to high dose intravenous methylprednisolone in myasthenia gravis, **214**
**disability,** Age specific prevalence of impairment and disability relating to hemiplegic stroke in the Hai District of northern Tanzania, **744**
No association between the APOE ε4 allele and outcome and susceptibility in primary progressive multiple sclerosis: *letter*, **532**
**disability outcome measures,** Disability outcome measures in therapeutic trials of relapsing-remitting multiple sclerosis: effects of heterogeneity of disease course in placebo cohorts, **450**
**disc displacement,** When does the patient with a disc herniation undergo lumbosacral discectomy?, **75**
**discectomy,** When does the patient with a disc herniation undergo lumbosacral discectomy?, **75**
**disconnection syndrome,** Cystic dysplasia of the corpus callosum in interhemispheric disconnection syndrome, **676**
**dissociation between will and action,** When aliens invade: multiple mechanisms for dissociation between will and action: *commentary*, **7**
**dizziness,** Assessment and treatment of dizziness: *editorial*, **129**
**dopamine,** A window on the role of dopamine in addiction disorders: *editorial*, **404**
**dopamine agonists,** Dopamine agonists: their role in the treatment of Parkinson's disease: *editorial*, **685**
**dopaminergic loss,** Pattern of dopaminergic loss in the striatum of humans with parkinsonism induced by MPTP: *editorial*, **276**
**dopa-responsive,** Late onset levodopa responsive Huntington's disease with minimal chorea masquerading as Parkinson plus syndrome, **238**
**dose range,** Botulinum toxin (Dysport®) treatment of hip adductor spasticity in multiple sclerosis: a prospective, randomised, double blind, placebo controlled, dose ranging study, **707**
**driving,** Epilepsy surgery, visual fields, and driving: a study of the visual field criteria for driving in patients after temporal lobe epilepsy surgery with a comparison of Goldmann and Esterman perimetry, **80**
Epilepsy surgery, visual fields, and driving: *commentary*, **6**
**drug misuse,** Hedonistic homeostatic dysregulation in patients with Parkinson's disease on dopamine replacement therapies, **423**
**dural fistula,** Intracranial dural fistula as a cause of diffuse MRI enhancement of the cervical spinal cord: *correspondence*, **799**
**dynamometry,** Neuromuscular findings in thyroid dysfunction: a prospective clinical and electrodiagnostic study, **750**
**dysexecutive syndrome,** Group and case study of the dysexecutive syndrome in alcoholism without amnesia, **731**
**dyskinesia,** Petroclival meningioma as a cause of ipsilateral cervicofacial dyskinesias: *letter*, **113**
High frequency stimulation of the subthalamic nucleus and levodopa induced dyskinesias in Parkinson's disease: *letter*, **121**
**dyslexia,** Unidirectional dyslexia in a polyglot: *correspondence*, **537**
**dysphagia,** Coughing and choking in motor neuron disease, **601**
**dystonia,** Cervical syringomyelia at the C7-C8 level presenting with bilateral scapular winging: *letter*, **394**
Petroclival meningioma as a cause of ipsilateral cervicofacial dyskinesias: *letter*, **113**

**ecstasy,** Impaired cognitive performance in drug free users of recreational ecstasy (MDMA), **719**
Impaired cognitive performance in drug free users of recreational ecstasy (MDMA): *commentary*, **690**
**efference copy,** Auditory saccade impairment after central thalamus lesions, **234**
**electromyography,** Stepping before standing: hip muscle function in stepping and standing balance after stroke, **458**
**electrophysiological investigations.,** Postpartum lumbosacral plexopathy limited to autonomic and perineal manifestations: clinical and electrophysiological study of 19 patients, **771**
**embolisation,** Recanalisation of spinal dural arteriovenous fistula after successful embolisation, **792**
**emotion,** Emotional outcomes after stroke: factors associated with poor outcome, **47**
**emotional disorder,** Neurological disease, emotional disorder, and disability: they are related: a study of 300 consecutive new referrals to a neurology outpatient department, **202**
**encephalopathy,** Myelopathy associated with Hashimoto's disease: *letter*, **681**
**entacapone,** The catechol-*O*-methyltransferase (COMT) inhibitor entacapone enhances the pharmacokinetic and clinical response to Sinemet CR in Parkinson's disease, **589**
**environmental dependency syndrome,** Forced hyperphasia and environmental dependency syndrome, **224**
**ephedrine,** Ischaemic stroke in a sportsman who consumed MaHuang extract and creatine monohydrate for body building: *letter*, **112**
**epidemiology,** Prevalence of multiple sclerosis in the L'Aquila district, central Italy, **349**
Trends in mortality from sporadic Creutzfeldt-Jakob disease in France 1992–7, **787**
**epidural compression,** Epidural compression of the cauda equina caused by vertebral osteoblastic metastasis of prostatic carcinoma: resolution by hormonal therapy, **514**
**epilepsy,** Behçet's syndrome may present with partial seizures: *letter*, **392**
Epilepsy surgery, visual fields, and driving: *commentary*, **6**
Epileptic cardiac asystole: *letter*, **108**
Golf ball epilepsy: *letter*, **251**
Neurocysticercosis and epilepsy in developing countries, **137**
Psychiatric aspects of temporal lobe epilepsy before and after anterior temporal lobectomy, **53**
Reduction of frontal neocortical grey matter associated with affective aggression in patients with temporal lobe epilepsy: an objective voxel by voxel analysis of automatically segmented MRI, **162**
Sudden unexpected death in epilepsy: a series of witnessed deaths, **211**
**epilepsy surgery,** Epilepsy surgery, visual fields, and driving: a study of the visual field criteria for driving in patients after temporal lobe epilepsy surgery with a comparison of Goldmann and Esterman perimetry, **80**
**ethambutol,** Ethambutol related headache in HIV infection: sensitisation to normal CSF pressure? A case report: *letter*, **535**
**evoked potentials,** Value of somatosensory and motor evoked potentials in predicting arm recovery after a stroke, **323**
**executive functions,** Group and case study of the dysexecutive syndrome in alcoholism without amnesia, **731**
**extradural mass;** Hypertrophic atlantoaxial ligaments: an unusual cause of compression of the upper spinal cord: *letter*, **116**
**extraocular muscles,** Extraocular muscle responses to high dose intravenous methylprednisolone in myasthenia gravis, **214**
**eyelid retraction,** Unilateral eyelid retraction: *letter*, **390**

**F wave,** Isolated absence of F waves and proximal axonal dysfunction in Guillain-Barré syndrome with antiganglioside antibodies, **191**
**factitious disorder,** Factitious clock drawing and constructional apraxia: *letter,* **106**
**Fahr's syndrome,** Fahr's disease and Asperger's syndrome in a patient with primary hypoparathyroidism: *letter,* **115**
**familial Creutzfeldt-Jakob disease,** Familial Creutzfeldt-Jakob disease with D178N-129M mutation of *PRNP* presenting as cerebellar ataxia without insomnia: *letter,* **388**
**fasciitis,** Myopathy with anti-Jo-1 antibodies: pathology in perimysium and neighbouring muscle fibres, **472**
**fear conditioned potentiation,** Fear conditioned potentiation of the acoustic blink reflex in patients with cerebellar lesions, **358**
**fever,** Febrile Hashimoto's encephalopathy: *letter,* **795**
**FFI,** Familial Creutzfeldt-Jakob disease with D178N-129M mutation of *PRNP* presenting as cerebellar ataxia without insomnia: *letter,* **388**
**fluorodopa,** Pattern of dopaminergic loss in the striatum of humans with MPTP induced parkinsonism, **313**
**forced hyperphasia,** Forced hyperphasia and environmental dependency syndrome, **224**
**frontal lobe,** Frontal release signs in older people with peripheral vascular disease: *letter,* **105**
Disruption of attention to novel events after frontal lobe injury in humans, **18**
Pathological switching between languages after frontal lesions in a bilingual patient, **650**
**frontal temporal,** Frontotemporal dementia and neuropsychology: the value of missing values, **726**
**frontotemporal dementia,** Corticobasal ganglionic degeneration and/or frontotemporal dementia? A report of two overlap cases and review of literature, **304**
**frontotemporal lobar degeneration,** Corticobasal ganglionic degeneration and/or frontotemporal dementia? A report of two overlap cases and review of literature, **304**
**functional magnetic resonance imaging,** Recovery from optic neuritis is associated with a change in the distribution of cerebral response to visual stimulation: a functional magnetic resonance imaging study, **441**

**gait,** Stepping before standing: hip muscle function in stepping and standing balance after stroke, **458**
**gamma knife,** Results of radiosurgery for brain stem arteriovenous malformations, **563**
**ganglioside antibodies,** Sensory predominant neuropathy with $GM_1$ antibodies, conduction blocks, and orbital pseudotumour: *letter,* **252**
**genetics,** A new family with paroxysmal exercise induced dystonia and migraine: a clinical and genetic study, **609**
**geste antagoniste,** Factors that ameliorate or aggravate spasmodic torticollis, **227**
**giant cell arteritis,** Giant cell arteritis of the cervical radicular vessels presenting with diaphragmatic weakness: *letter,* **536**
**ginkgo,** Coma in a patient with Alzheimer's disease taking low dose trazodone and ginkgo biloba: *letter,* **679**
**Glasgow coma scale,** Monitoring of head injury by myotatic reflex evaluation, **581**
**gliomatosis cerebri,** Progressive dementia and gait disorder in a 78 year old woman, **526**
**$GM_1$ antibodies,** Sensory predominant neuropathy with $GM_1$ antibodies, conduction blocks, and orbital pseudotumour: *letter,* **252**
**golf ball,** Golf ball epilepsy: *letter,* **251**
**Gower's sign,** Gower's sign, **149**
**graduated tuning fork,** Reliability and responsiveness of a graduated tuning fork in immune mediated polyneuropathies, **669**
**Guillain-Barré syndrome,** Bickerstaff's brainstem encephalitis subsequent to *Campylobacter jejuni enteritis : letter,* **680**
Distinctions between critical illness polyneuropathy and axonal Guillain- Barré syndrome: *correspondence,* **397**
Isolated absence of F waves and proximal axonal dysfunction in Guillain-Barré syndrome with antiganglioside antibodies, **191**

**Hashimoto's disease,** Myelopathy associated with Hashimoto's disease: *letter,* **681**
**Hashimoto's encephalopathy,** Febrile Hashimoto's encephalopathy: *letter,* **795**
Hashimoto's encephalopathy presenting as "myxoedematous madness": *letter,* **102**
**head injury,** Mass volume measurement in severe head injury: accuracy and feasibility of two pragmatic methods, **14**
Monitoring of head injury by myotatic reflex evaluation, **581**
Skull fractures and mild head injury: *editorial,* **403**
Snapshot view of emergency neurosurgical head injury care in Great Britain and Ireland, **8**
Value of radiological diagnosis of skull fracture in the management of mild head injury: meta-analysis, **416**
**headache,** Ethambutol related headache in HIV infection: sensitisation to normal CSF pressure? A case report: *letter,* **535**
Ethambutol related headache in HIV infection: sensitisation to normal CSF pressure? A case report: *letter,* **535**
**hemiparesis,** Stepping before standing: hip muscle function in stepping and standing balance after stroke, **458**
**hepatic mitochondria,** Morphological abnormalities of hepatic mitochondria in two patients with spinocerebellar ataxia type 7: *letter,* **393**
**hereditary neuropathy,** Respiratory insufficiency in a patient with hereditary neuropathy with liability to pressure palsy: *letter,* **110**
**hippocampus,** Apolipoprotein E genotype and hippocampal asymmetry in Alzheimer's disease: a volumetric MRI study, **93**
**HIV,** Ethambutol related headache in HIV infection: sensitisation to normal CSF pressure? A case report: *letter,* **535**
**HIV infection,** Devic's neuromyelitis optica and HIV-1 infection: *letter,* **795**
**HIV/AIDS,** HIV antibody profiles in serum and CSF of patients with neurological disease can serve as predictors of outcome, **86**
**Hopkins' syndrome,** Acute myelitis after asthma attacks with onset after puberty, **665**
**hormonal therapy,** Epidural compression of the cauda equina caused by vertebral osteoblastic metastasis of prostatic carcinoma: resolution by hormonal therapy, **514**
**HTLV-1 and HIV infections,** HTLV-1 and HIV infections of the central nervous system in tropical areas, **550**
**Huntington's disease,** Late onset levodopa responsive Huntington's disease with minimal chorea masquerading as Parkinson plus syndrome, **238**
Motor cortical excitability in Huntington's disease: *correspondence,* **119**
**Huntington's disease-like,** Absence of unidentified CAG repeat expansion in patients with Huntington's disease-like phenotype, **672**
**hyatid cysts,** Multiple hydatid cysts of the brain after surgery, **97**
**hydrocephalus,** Cognitive changes after cerebrospinal fluid shunting in young adults with spina bifida and assumed arrested hydrocephalus, **615**
Link between the CSF shunt and achievement in adults with spina bifida: *correspondence,* **800**
Post-traumatic hydrocephalus: influence of craniectomy on the CSF circulation: *letter,* **246**
**hyperosmolar non-ketotic hyperglycaemia,** Status-like recurrent pilomotor seizures: case report and review of the literature, **647**
**hyperthyroidism,** Neuromuscular findings in thyroid dysfunction: a prospective clinical and electrodiagnostic study, **750**
**hypoparathyroidism,** Fahr's disease and Asperger's syndrome in a patient with primary hypoparathyroidism: *letter,* **115**
**hypothyroidism,** Neuromuscular findings in thyroid dysfunction: a prospective clinical and electrodiagnostic study, **750**

**idiopathic,** Tardive and idiopathic oromandibular dystonia: a clinical comparison, **186**
**IgG,** A case of inclusion body myositis with benign monoclonal gammopathy successfully responding to repeated immunoabsorption, **230**
**imitation behaviour,** Forced hyperphasia and environmental dependency syndrome, **224**
**immune,** Myopathy with anti-Jo-1 antibodies: pathology in perimysium and neighbouring muscle fibres, **472**
**immune mediated polyneuropathy,** Reliability and responsiveness of a graduated tuning fork in immune mediated polyneuropathies, **669**
**immunoabsorption,** A case of inclusion body myositis with benign monoclonal gammopathy successfully responding to repeated immunoabsorption, **230**
**immunoglobulin,** New hope for patients with pure lower motor neuron syndromes: *correspondence,* **398**
Treatment with intravenous prednisone and immunoglobulin in a case of progressive encephalomyelitis with rigidity: *letter,* **395**
**immunostimulating factor,** Acute multifocal cerebral white matter lesions during transfer factor therapy: *letter,* **114**
**immunosuppresive treatment,** Treatment of paraneoplastic neurological syndromes with antineuronal antibodies (Anti-Hu, Anti-Yo) with a combination of immunoglobulins, cyclophosphamide, and methylprednisolone, **479**
**inclusion body myositis,** A case of inclusion body myositis with benign monoclonal gammopathy successfully responding to repeated immunoabsorption, **230**
**intelligence,** Group and case study of the dysexecutive syndrome in alcoholism without amnesia, **731**
**intensive care unit,** Snapshot view of emergency neurosurgical head injury care in Great Britain and Ireland, **8**
**interferon β,** Treatment of multiple sclerosis with interferon β: an appraisal of cost-effectiveness and quality of life, **144**
**interferon-β: multiple sclerosis,** Focal neuropathy associated with cutaneous necrosis at the site of interferon-β injection for multiple sclerosis: *letter,* **395**
**interleukin 2,** No evidence for the involvement of interleukin 2 or the immunoglobulin heavy chain gene cluster in determining genetic susceptibility to multiple sclerosis: *letter,* **679**
**international prostate symptom score,** Assessment of voiding dysfunction in Parkinson's disease by the international prostate symptom score, **429**

**intracranial aneurysm,** Detection of intracranial aneurysms with unenhanced and echo contrast enhanced transcranial power Doppler, **489**
**intracranial aneurysms,** Risk analysis of treatment of unruptured aneurysms, **577**
**intracranial hypertension,** Ethambutol related headache in HIV infection: sensitisation to normal CSF pressure? A case report: *letter,* **535**
Idiopathic intracranial hypertension and anticardiolipin antibodies, **379**
**intradural arachnoid cyst,** An arachnoid cyst presenting as an intramedullary tumour, **508**
**intravenous immunoglobulin,** Cerebral infarction complicating intravenous immunoglobulin therapy in a patient with Miller Fisher syndrome, **790**
Plasmapheresis in multifocal motor neuropathy: a case report: *letter,* **533**
**intravenous immunoglobulins,** Placebo controlled pilot trial to study the remyelinating potential of intravenous immunoglobulins in multiple sclerosis, **89**
**intraventricular shunts,** Link between the CSF shunt and achievement in adults with spina bifida: *correspondence,* **800**
**involuntary movement,** Subjective experience, involuntary movement, and posterior alien hand syndrome, **83**
**ischaemic stroke,** Ischaemic stroke in a sportsman who consumed MaHuang extract and creatine monohydrate for body building: *letter,* **112**
**isolated dysarthria,** Isolated dysarthria: *letter,* **118**
**Italy,** Prevalence of multiple sclerosis in the L'Aquila district, central Italy, **349**

**Japanese encephalitis,** Japanese encephalitis, **405**
**Jo-1 antibody,** Myopathy with anti-Jo-1 antibodies: pathology in perimysium and neighbouring muscle fibres, **472**
**jugular thrombosis,** Spinal accessory neuropathy and internal jugular thrombosis after carotid endarterectomy: *letter,* **111**

**Korsakoff's syndrome,** Status-like recurrent pilomotor seizures: case report and review of the literature, **647**

**lamotrigine,** Use of lamotrigine to treat paroxysmal kinesigenic choreoathetosis: *letter,* **796**
**lepromatous leprosy,** Vasculitic neuropathy in a patient with inactive treated lepromatous leprosy, **496**
**letter discrimination,** Intact verbal description of letters with diminished awareness of their forms, **782**
**leukoaraiosis,** Cerebral white matter lesions are not associated with apoE genotype but with age and female sex in Alzheimer's disease, **653**
**levodopa,** Axial parkinsonian symptoms can be improved: the role of levodopa and bilateral subthalamic stimulation, **595**
Hedonistic homeostatic dysregulation in patients with Parkinson's disease on dopamine replacement therapies, **423**
**levodopa induced dyskinesias,** An ambulatory dyskinesia monitor, **196**
**Lewy body disease,** Alterations of muscarinic acetylcholine receptor subypes in diffuse Lewy body disease: relation to Alzheimer's disease: *letter,* **253**
**London handicap scale,** The London handicap scale: a re-evaluation of its validity using standard scoring and simple summation, **365**
**lower motor neuron syndromes,** New hope for patients with pure lower motor neuron syndromes: *correspondence,* **398**
**lumbosacral plexopathy,** Postpartum lumbosacral plexopathy limited to autonomic and perineal manifestations: clinical and electrophysiological study of 19 patients, **771**
**Lyme neuroborreliosis,** Upregulation of matrix metalloproteinase-9 in the cerebrospinal fluid of patients with acute Lyme neuroborreliosis, **368**

**magnetic resonance imaging,** Apolipoprotein E genotype and hippocampal asymmetry in Alzheimer's disease: a volumetric MRI study, **93**
Auditory saccade impairment after central thalamus lesions, **234**
Brain involvement in systemic immune mediated diseases: magnetic resonance and magnetisation transfer imaging study, **170**
Changes in the normal appearing brain tissue and cognitive impairment in multiple sclerosis, **157**
Cystic dysplasia of the corpus callosum in interhemispheric disconnection syndrome, **676**
Intracranial dural fistula as a cause of diffuse MRI enhancement of the cervical spinal cord: *correspondence,* **799**
One year follow up study of primary and transitional progressive multiple sclerosis, **713**
Reduction of frontal neocortical grey matter associated with affective aggression in patients with temporal lobe epilepsy: an objective voxel by voxel analysis of automatically segmented MRI, **162**
**magnetic stimulation,** Conduction deficits of callosal fibres in early multiple sclerosis, **633**
Modulation of single motor unit discharges using magnetic stimulation of the motor cortex in incomplete spinal cord injury, **516**
**magnetisation transfer,** In vivo investigation of white matter pathology in schizophrenia with magnetisation transfer imaging, **70**
**magnetisation transfer imaging,** Brain involvement in systemic immune mediated diseases: magnetic resonance and magnetisation transfer imaging study, **170**
Changes in the normal appearing brain tissue and cognitive impairment in multiple sclerosis, **157**
**MaHuang extract,** Ischaemic stroke in a sportsman who consumed MaHuang extract and creatine monohydrate for body building: *letter,* **112**
**malignant peripheral nerve,** Evaluation of $^{18}$fluorodeoxyglucose positron emission tomography ($^{18}$FDG PET) in the detection of malignant peripheral nerve sheath tumours arising from within plexiform neurofibromas in neurofibromatosis 1, **353**
**malingering,** Factitious clock drawing and constructional apraxia: *letter,* **106**
**manometry,** Manometric investigation of anorectal function in early and late stage Parkinson's disease, **768**
**mass lesions,** Mass volume measurement in severe head injury: accuracy and feasibility of two pragmatic methods, **14**
**matrix glycoproteins,** Oncofetal matrix glycoproteins in cerebral arteriovenous malformations and neighbouring vessels: *letter,* **101**
**matrix metalloproteinase,** Upregulation of matrix metalloproteinase-9 in the cerebrospinal fluid of patients with acute Lyme neuroborreliosis, **368**
**MELAS syndrome,** Invasive aspergillosis in a patient with MELAS syndrome, **765**
**Menières disease,** Assessment and treatment of dizziness: *editorial,* **129**
**meningioma,** Petroclival meningioma as a cause of ipsilateral cervicofacial dyskinesias: *letter,* **113**
**meningitis,** Role of clinical, radiological, and neurophysiological changes in predicting the outcome of tuberculous meningitis: a multivariable analysis, **300**
**meta-analysis,** Value of radiological diagnosis of skull fracture in the management of mild head injury: meta-analysis, **416**
**1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine,** Pattern of dopaminergic loss in the striatum of humans with MPTP induced parkinsonism, **313**
Pattern of dopaminergic loss in the striatum of humans with parkinsonism induced by MPTP: *editorial,* **276**
**3,4-methylenedioxymethamphetamine,** Impaired cognitive performance in drug free users of recreational ecstasy (MDMA), **650; 719**
**methylprednisolone,** Anaphylactoid reaction to methylprenisolone. Is it surprising when pharmacological and immune effects of a drug differ?: *letter,* **255**
**migraine,** A new family with paroxysmal exercise induced dystonia and migraine: a clinical and genetic study, **609**
**microvascular decompression,** Microvascular decompression for trigeminal neuralgia: comments on a series of 250 cases, including 10 patients with multiple sclerosis, **59**
**microvascular Doppler ultrasonography,** Intraoperative microvascular Doppler ultrasonography in cerebral aneurysm surgery, **29**
**Miller Fisher syndrome,** Cerebral infarction complicating intravenous immunoglobulin therapy in a patient with Miller Fisher syndrome, **790**
**mite,** Acute myelitis after asthma attacks with onset after puberty, **665**
**mixed connective tissue disease,** Transverse myelopathy, a rare complication of mixed connective tissue disease: comparison with SLE related transverse myelopathy: *letter,* **532**
**MMN,** Sensory predominant neuropathy with $GM_1$ antibodies, conduction blocks, and orbital pseudotumour: *letter,* **252**
**monocular visual loss,** Monocular visual loss and platelet fibrin embolism to the retina, **386**
**mood,** Emotional outcomes after stroke: factors associated with poor outcome, **47**
**motor cortical excitability,** Motor cortical excitability in Huntington's disease: *correspondence,* **119**
**motor evoked potential,** Role of clinical, radiological, and neurophysiological changes in predicting the outcome of tuberculous meningitis: a multivariable analysis, **300**
**motor neuron disease,** Coughing and choking in motor neuron disease, **601**
Pharmacoeconomics and motor neuron disease: *editorial,* **401**
**motor unit,** Modulation of single motor unit discharges using magnetic stimulation of the motor cortex in incomplete spinal cord injury, **516**
**movement disorders,** Use of lamotrigine to treat paroxysmal kinesigenic choreoathetosis: *letter,* **796**
**MRI,** Radiologically selective visual pathway involvement in adult onset cerebral adrenoleukodystrophy: *letter,* **249**
**muliple myeloma,** Myopathy due to primary systemic amyloidosis, **385**
**multifocal motor neuropathy,** Plasmapheresis in multifocal motor neuropathy: a case report: *letter,* **533**
**multiple sclerosis,** Acute multifocal cerebral white matter lesions during transfer factor therapy: *letter,* **114**
Acute optic neuritis in Australia: a 13 year prospective study: *letter,* **246**
Benign multiple sclerosis? Clinical course, long term follow up, and assessment of prognostic factors: *correspondence,* **396**

Botulinum toxin (Dysport®) treatment of hip adductor spasticity in multiple sclerosis: a prospective, randomised, double blind, placebo controlled, dose ranging study, **707**
Changes in the normal appearing brain tissue and cognitive impairment in multiple sclerosis, **157**
Clinical appropriateness: a key factor in outcome measure selection: the 36 item short form health survey in multiple sclerosis, **150**
Conduction deficits of callosal fibres in early multiple sclerosis, **633**
Disability outcome measures in therapeutic trials of relapsing-remitting multiple sclerosis: effects of heterogeneity of disease course in placebo cohorts, **450**
Evaluation of three different ways of assessing tremor in multiple sclerosis, **756**
Hemiageusia from an ipsilateral multiple sclerosis plaque at the midpontine tegmentum: *letter,* **796**
Lesion heterogeneity in multiple sclerosis: a study of the relations between appearances on T1 weighted images, T1 relaxation times, and metabolite concentrations, **627**
Microvascular decompression for trigeminal neuralgia: comments on a series of 250 cases, including 10 patients with multiple sclerosis, **59**
No association between the APOE ε4 allele and outcome and susceptibility in primary progressive multiple sclerosis: *letter,* **532**
No evidence for the involvement of interleukin 2 or the immunoglobulin heavy chain gene cluster in determining genetic susceptibility to multiple sclerosis: *letter,* **679**
Ocular microtremor (OMT): a new neurophysiological approach to multiple sclerosis, **639**
One year follow up study of primary and transitional progressive multiple sclerosis, **713**
Placebo controlled pilot trial to study the remyelinating potential of intravenous immunoglobulins in multiple sclerosis, **89**
Prevalence of multiple sclerosis in the L'Aquila district, central Italy, **349**
Treatment of multiple sclerosis with interferon β: an appraisal of cost-effectiveness and quality of life, **144**
**multiple system atrophy,** Accumulation of NACP/α-synuclein in Lewy body disease and multiple system atrophy, **605**
Late onset levodopa responsive Huntington's disease with minimal chorea masquerading as Parkinson plus syndrome, **238**
Urinary dysfunction and orthostatic hypotension in multiple system atrophy: which is the more common and earlier manifestation?, **65**
What clinical features are most useful to distinguish definite multiple system atrophy from Parkinson's disease?, **434**
**muscarinic acetylcholine receptors,** Alterations of muscarinic acetylcholine receptor subypes in diffuse Lewy body disease: relation to Alzheimer's disease: *letter,* **253**
**mutation,** Novel presenilin-1 mutation with widespread cortical amyloid deposition but limited cerebral amyloid angiopathy, **220**
**myasthenia gravis,** Extraocular muscle responses to high dose intravenous methylprednisolone in myasthenia gravis, **214**
**myelin proteins,** Clinical syndromes associated with tomacula or myelin swellings in sural nerve biopsies, **483**
**myelitis,** Acute myelitis after asthma attacks with onset after puberty, **665**
**myelopathy,** Myelopathy associated with Hashimoto's disease: *letter,* **681**
**myopathy,** Distinctions between critical illness polyneuropathy and axonal Guillain- Barrè syndrome: *correspondence,* **397**
Myopathy due to primary systemic amyloidosis, **385**
Myopathy with anti-Jo-1 antibodies: pathology in perimysium and neighbouring muscle fibres, **472**
Neuromuscular findings in thyroid dysfunction: a prospective clinical and electrodiagnostic study, **750**
**myositis,** Myopathy with anti-Jo-1 antibodies: pathology in perimysium and neighbouring muscle fibres, **472**
**myxoedema,** Hashimoto's encephalopathy presenting as "myxoedematous madness": *letter,* **102**

**NACP,** Accumulation of NACP/α-synuclein in Lewy body disease and multiple system atrophy, **605**
**natural history,** Natural history of elderly patients with asymptomatic meningiomas, **25**
**nerve root compression,** When does the patient with a disc herniation undergo lumbosacral discectomy?, **75**
**neurocysticercosis,** Neurocysticercosis and epilepsy in developing countries, **137**
**neurofibromatosis 1,** Detailed analysis of the oligodendrocyte myelin glycoprotein gene in four patients with neurofibromatosis 1 and primary progressive multiple sclerosis, **643**
Evaluation of $^{18}$fluorodeoxyglucose positron emission tomography ($^{18}$FDG PET) in the detection of malignant peripheral nerve sheath tumours arising from within plexiform neurofibromas in neurofibromatosis 1, **353**
**neurogenetics,** Frataxin point mutations in two patients with Friedreich's ataxia and unusual clinical features, **661**
**neurological complications,** Behçet's syndrome may present with partial seizures: *letter,* **392**
Increased incidence of neurological complications in patients receiving an allogenic bone marrow transplantation from alternative donors, **36**
**neurological disease,** Neurological disease, emotional disorder, and disability: they are related: a study of 300 consecutive new referrals to a neurology outpatient department, **202**
**neurological manifestations,** HIV antibody profiles in serum and CSF of patients with neurological disease can serve as predictors of outcome, **86**
**Neurological stamp,** August Forel (1848–1931), **781**

**neurology,** Do medically unexplained symptoms matter? A prospective cohort study of 300 new referrals to neurology outpatient clinics, **207**
**neuromyelitis optica,** Devic's neuromyelitis optica and HIV-1 infection: *letter,* **795**
**neuropathy,** Focal neuropathy associated with cutaneous necrosis at the site of interferon-β injection for multiple sclerosis: *letter,* **395**
Neuromuscular findings in thyroid dysfunction: a prospective clinical and electrodiagnostic study, **750**
Recurrent peripheral neuropathy in a girl with celiac disease : *letter,* **104**
Sensory predominant neuropathy with $GM_1$ antibodies, conduction blocks, and orbital pseudotumour: *letter,* **252**
**neurophysiology,** Ocular microtremor (OMT): a new neurophysiological approach to multiple sclerosis, **639**
**neuroprotection,** Dopamine agonists: their role in the treatment of Parkinson's disease: *editorial,* **685**
**neuropsychological tests,** Frontotemporal dementia and neuropsychology: the value of missing values, **726**
**neuropsychology,** Cognitive changes after cerebrospinal fluid shunting in young adults with spina bifida and assumed arrested hydrocephalus, **615**
Reversible neuropsychological deficits after mild traumatic brain injury, **761**
**neuroscience research,** Problems in neuroscience research: *editorial,* **1**
**neurotoxicity,** Impaired cognitive performance in drug free users of recreational ecstasy (MDMA), **719**
**neurovisual rehabilitation,** Neurovisual rehabilitation: recent developments and future directions: *review,* **691**
**new variant Creutzfeldt-Jakob disease,** New variant Creutzfeldt-Jakob disease: three case reports from Leicestershire, **375**
**NFκB,** Upregulation of matrix metalloproteinase-9 in the cerebrospinal fluid of patients with acute Lyme neuroborreliosis, **368**
**non-Alzheimer dementias,** Corticobasal ganglionic degeneration and/or frontotemporal dementia? A report of two overlap cases and review of literature, **304**
**normal pressure hydrocephalus,** Alzheimer's disease comorbidity in normal pressure hydrocephalus: prevalence and shunt response, **778**
**novelty,** Disruption of attention to novel events after frontal lobe injury in humans, **18**

**obsessive-compulsive disorder,** Adult onset tic disorders, **738**
**ocular microtremor,** Ocular microtremor (OMT): a new neurophysiological approach to multiple sclerosis, **639**
**oligodendrocyte myelin glycoprotein,** Detailed analysis of the oligodendrocyte myelin glycoprotein gene in four patients with neurofibromatosis 1 and primary progressive multiple sclerosis, **643**
**optic neuritis,** Acute optic neuritis in Australia: a 13 year prospective study: *letter,* **246**
**optic neuropathy,** Frataxin point mutations in two patients with Friedreich's ataxia and unusual clinical features, **661**
**oromandibular dystonia,** Tardive and idiopathic oromandibular dystonia: a clinical comparison, **186**
**orthostatic hypotension,** Urinary dysfunction and orthostatic hypotension in multiple system atrophy: which is the more common and earlier manifestation?, **65**
**osteoarthritis,** Pattern of premature degenerative changes of the cervical spine in patients with spasmodic torticollis and the impact on the outcome of selective peripheral denervation, **465**
**osteoblastic metastasis,** Epidural compression of the cauda equina caused by vertebral osteoblastic metastasis of prostatic carcinoma: resolution by hormonal therapy, **514**
**outcome,** Emotional outcomes after stroke: factors associated with poor outcome, **47**
Functional outcome and quality of life after angiography and operation for unruptured intracranial aneurysms, **571**
Functional recovery despite prolonged bilateral loss of somatosensory evoked potentials: report on two patients, **657**
**outcome measurement,** The London handicap scale: a re-evaluation of its validity using standard scoring and simple summation, **365**
**outcome measures,** Responsiveness of outcome measures in randomised controlled trials in neurology: *editorial,* **274**
**Oxfordshire Community Stroke Project,** How well does the Oxfordshire Community Stroke Project classification predict the site and size of the infarct on brain imaging?, **558**

**paramyotonia congenita,** Clinical, electrophysiological, and molecular genetic studies in a new family with paramyotonia congenita, **504**
**paraneoplastic neurological syndromes,** Treatment of paraneoplastic neurological syndromes with antineuronal antibodies (Anti-Hu, Anti-Yo) with a combination of immunoglobulins, cyclophosphamide, and methylprednisolone, **479**
**Parkinson's disease,** Accumulation of NACP/α-synuclein in Lewy body disease and multiple system atrophy, **605**
Assessment of voiding dysfunction in Parkinson's disease by the international prostate symptom score, **429**
Axial parkinsonian symptoms can be improved: the role of levodopa and bilateral subthalamic stimulation, **595**
Dopamine agonists: their role in the treatment of Parkinson's disease: *editorial,* **685**
Hedonistic homeostatic dysregulation in patients with Parkinson's disease on dopamine replacement therapies, **423**
High frequency stimulation of the subthalamic nucleus and levodopa induced dyskinesias in Parkinson's disease: *letter,* **121**
Improvement of memory guided saccades in parkinsonian patients by high frequency subthalamic nucleus stimulation, **381**
Manometric investigation of anorectal function in early and late stage Parkinson's disease, **768**
Mortality from Parkinson's disease: *letter,* **254**
Pattern of dopaminergic loss in the striatum of humans with MPTP induced parkinsonism, **313**
Pattern of dopaminergic loss in the striatum of humans with parkinsonism induced by MPTP: *editorial,* **276**
Sleep benefit in Parkinson´s disease: *correspondence,* **798**
The catechol-*O*-methyltransferase (COMT) inhibitor entacapone enhances the pharmacokinetic and clinical response to Sinemet CR in Parkinson's disease, **589**
What clinical features are most useful to distinguish definite multiple system atrophy from Parkinson's disease?, **434**
**paroxysmal exercise induced dystonia,** A new family with paroxysmal exercise induced dystonia and migraine: a clinical and genetic study, **609**
**paroxysmal kinesigenic choreoathetosis,** Use of lamotrigine to treat paroxysmal kinesigenic choreoathetosis: *letter,* **796**
**pathological switching between languages,** Pathological switching between languages after frontal lesions in a bilingual patient, **650**
**pathology,** Clinical syndromes associated with tomacula or myelin swellings in sural nerve biopsies, **483**
**peripheral nerves,** Clinical syndromes associated with tomacula or myelin swellings in sural nerve biopsies, **483**
**peripheral vascular disease,** Frontal release signs in older people with peripheral vascular disease: *letter,* **105**
**pharmacoeconomics,** Pharmacoeconomics and motor neuron disease: *editorial,* **401**
**physiological tremor,** Ocular microtremor (OMT): a new neurophysiological approach to multiple sclerosis, **639**
**piezoelectric,** Ocular microtremor (OMT): a new neurophysiological approach to multiple sclerosis, **639**
**pilomotor seizures,** Status-like recurrent pilomotor seizures: case report and review of the literature, **647**
**pinworm infestation,** Transverse myelopathy in the antiphospholipid antibody syndrome: pinworm infestation as a trigger?: *letter,* **249**
**plasmapheresis,** Plasmapheresis in multifocal motor neuropathy: a case report: *letter,* **533**
**platelet fibrin embolism,** Monocular visual loss and platelet fibrin embolism to the retina, **386**
**plexiform neurofibroma,** Evaluation of $^{18}$fluorodeoxyglucose positron emission tomography ($^{18}$FDG PET) in the detection of malignant peripheral nerve sheath tumours arising from within plexiform neurofibromas in neurofibromatosis 1, **353**
**polyglot,** Unidirectional dyslexia in a polyglot: *correspondence,* **537**
**pontine tegmentum,** Hemiageusia from an ipsilateral multiple sclerosis plaque at the midpontine tegmentum: *letter,* **796**
**positron emission tomography,** Evaluation of $^{18}$fluorodeoxyglucose positron emission tomography ($^{18}$FDG PET) in the detection of malignant peripheral nerve sheath tumours arising from within plexiform neurofibromas in neurofibromatosis 1, **353**
Pattern of dopaminergic loss in the striatum of humans with MPTP induced parkinsonism, **313**
**posterior fossa,** Aseptic meningitis after posterior fossa surgery treated by pseudomeningocele closure, **218**
**postictal psychosis,** Postictal psychosis related regional cerebral hyperperfusion: *letter,* **100**
**postmalaria neurological syndrome,** Postmalaria neurological syndrome: a case of acute disseminated encephalomyelitis?: *letter,* **388**
**postpartum,** Postpartum lumbosacral plexopathy limited to autonomic and perineal manifestations: clinical and electrophysiological study of 19 patients, **771**
**postrabies vaccination,** "Can't you use another vaccine"? Postrabies vaccination encephalitis: *correspondence,* **798**
**post-traumatic amnesia,** Resolution of disorientation and amnesia during post-traumatic amnesia, **178**
**postural hypotension,** Late onset levodopa responsive Huntington's disease with minimal chorea masquerading as Parkinson plus syndrome, **238**
**postural tremor,** Toluene induced postural tremor: *letter,* **117**
**prediction,** When does the patient with a disc herniation undergo lumbosacral discectomy?, **75**
**predictors,** Emotional outcomes after stroke: factors associated with poor outcome, **47**
HIV antibody profiles in serum and CSF of patients with neurological disease can serve as predictors of outcome, **86**
**prednisone,** Treatment with intravenous prednisone and immunoglobulin in a case of progressive encephalomyelitis with rigidity: *letter,* **395**
**presenilin-1,** Novel presenilin-1 mutation with widespread cortical amyloid deposition but limited cerebral amyloid angiopathy, **220**
**prevalence,** Prevalence of multiple sclerosis in the L'Aquila district, central Italy, **349**
**primary progressive,** One year follow up study of primary and transitional progressive multiple sclerosis, **713**
**primary progressive multiple sclerosis,** Detailed analysis of the oligodendrocyte myelin glycoprotein gene in four patients with neurofibromatosis 1 and primary progressive multiple sclerosis, **643**
**primitive reflexes,** Frontal release signs in older people with peripheral vascular disease: *letter,* **105**
**prion diseases,** Fatal familial insomnia: clinical, neuropathological, and genetic description of a Spanish family, **774**
**prion protein,** Alien hand sign in Creutzfeldt-Jakob disease: *letter,* **103**
**prion protein gene,** Familial Creutzfeldt-Jakob disease with D178N-129M mutation of *PRNP presenting as cerebellar ataxia without insomnia: letter,* **388**
**prognosis,** Role of clinical, radiological, and neurophysiological changes in predicting the outcome of tuberculous meningitis: a multivariable analysis, **300**
Value of somatosensory and motor evoked potentials in predicting arm recovery after a stroke, **323**
**prognostic factors,** Benign multiple sclerosis? Clinical course, long term follow up, and assessment of prognostic factors: *correspondence,* **396**
**progressive encephalomyelitis,** Treatment with intravenous prednisone and immunoglobulin in a case of progressive encephalomyelitis with rigidity: *letter,* **395**
**prostatic carcinoma,** Epidural compression of the cauda equina caused by vertebral osteoblastic metastasis of prostatic carcinoma: resolution by hormonal therapy, **514**
**pseudomeningocele,** Aseptic meningitis after posterior fossa surgery treated by pseudomeningocele closure, **218**
**pseudotumour cerebri,** Idiopathic intracranial hypertension and anticardiolipin antibodies, **379**
**psychiatric disorders,** Who should treat psychiatric disorders in neurology patients?: *editorial,* **134**
**psychiatry,** Psychiatric aspects of temporal lobe epilepsy before and after anterior temporal lobectomy, **53**

**quality of life,** Clinical appropriateness: a key factor in outcome measure selection: the 36 item short form health survey in multiple sclerosis, **150**
Functional outcome and quality of life after angiography and operation for unruptured intracranial aneurysms, **571**
Treatment of multiple sclerosis with interferon β: an appraisal of cost-effectiveness and quality of life, **144**

**radiological diognosis,** Value of radiological diagnosis of skull fracture in the management of mild head injury: meta-analysis, **416**
**radiosurgery,** How effective is radiosurgery for arteriovenous malformations?: *commentary,* **548**
Results of radiosurgery for brain stem arteriovenous malformations, **563**
**randomised controlled trials,** Responsiveness of outcome measures in randomised controlled trials in neurology: *editorial,* **274**
**regional hyperperfusion,** Postictal psychosis related regional cerebral hyperperfusion: *letter,* **100**
**rehabilitation,** Value of somatosensory and motor evoked potentials in predicting arm recovery after a stroke, **323**
**relaxation time,** Lesion heterogeneity in multiple sclerosis: a study of the relations between appearances on T1 weighted images, T1 relaxation times, and metabolite concentrations, **627**
**reliability,** Reliability and responsiveness of a graduated tuning fork in immune mediated polyneuropathies, **669**
**remyelination,** Placebo controlled pilot trial to study the remyelinating potential of intravenous immunoglobulins in multiple sclerosis, **89**
**resources for healthcare,** Snapshot view of emergency neurosurgical head injury care in Great Britain and Ireland, **8**
**respiratory insufficiency,** Respiratory insufficiency in a patient with hereditary neuropathy with liability to pressure palsy: *letter,* **110**
**responsiveness,** Reliability and responsiveness of a graduated tuning fork in immune mediated polyneuropathies, **669**
**retina,** Monocular visual loss and platelet fibrin embolism to the retina, **386**
**retinitis pigmentosa,** Postmortem study of ataxia with retinitis pigmentosa by mutation of the α-tocopherol transfer protein gene, **521**

**risk analysis,** Risk analysis of treatment of unruptured aneurysms, 577

**saccade,** Auditory saccade impairment after central thalamus lesions, 234
**saccades,** Improvement of memory guided saccades in parkinsonian patients by high frequency subthalamic nucleus stimulation, 381
**scale,** Evaluation of three different ways of assessing tremor in multiple sclerosis, 756
**scapular winging,** Cervical syringomyelia at the C7-C8 level presenting with bilateral scapular winging: *letter,* 394
**schizophrenia,** In vivo investigation of white matter pathology in schizophrenia with magnetisation transfer imaging, 70
Neuropathological abnormalities of the corpus callosum in schizophrenia: a diffusion tensor imaging study, 242
**secondary mania,** Anosognosia and mania associated with right thalamic haemorrhage: *letter,* 107
**secondary tic disorders,** Adult onset tic disorders, 738
**seizure,** Golf ball epilepsy: *letter,* 251
Validity of carbohydrate deficient transferrin and other markers as diagnostic aids in the detection of alcohol related seizures, 342
**selective peripheral denervation,** Pattern of premature degenerative changes of the cervical spine in patients with spasmodic torticollis and the impact on the outcome of selective peripheral denervation, 465
**service delivery,** Neurocysticercosis and epilepsy in developing countries, 137
**SF-36,** Clinical appropriateness: a key factor in outcome measure selection: the 36 item short form health survey in multiple sclerosis, 150
**sheath tumour,** Evaluation of $^{18}$fluorodeoxyglucose positron emission tomography ($^{18}$FDG PET) in the detection of malignant peripheral nerve sheath tumours arising from within plexiform neurofibromas in neurofibromatosis 1, 353
**side effects,** Focal neuropathy associated with cutaneous necrosis at the site of interferon-β injection for multiple sclerosis: *letter,* 395
**Singapore,** Histological subtypes of symptomatic central nervous system tumours in Singapore, 372
**skull fracture,** Value of radiological diagnosis of skull fracture in the management of mild head injury: meta-analysis, 416
**skull fractures,** Skull fractures and mild head injury: *editorial,* 403
**sleep,** Sleep benefit in Parkinson's disease: *correspondence,* 798
**sleep disorders,** Fatal familial insomnia: clinical, neuropathological, and genetic description of a Spanish family, 774
**smoking,** Smoking, drinking, and incident cognitive impairment: a cohort community based study included in the Gospel Oak project, 622
**sodium channel,** Clinical, electrophysiological, and molecular genetic studies in a new family with paramyotonia congenita, 504
**somatisation,** Do medically unexplained symptoms matter? A prospective cohort study of 300 new referrals to neurology outpatient clinics, 207
**somatosensory evoked potential,** Functional recovery despite prolonged bilateral loss of somatosensory evoked potentials: report on two patients, 657
Role of clinical, radiological, and neurophysiological changes in predicting the outcome of tuberculous meningitis: a multivariable analysis, 300
**southeast Asia,** Histological subtypes of symptomatic central nervous system tumours in Singapore, 372
**spasmodic torticollis,** Factors that ameliorate or aggravate spasmodic torticollis, 227
Pattern of premature degenerative changes of the cervical spine in patients with spasmodic torticollis and the impact on the outcome of selective peripheral denervation, 465
**spasticity,** Botulinum toxin (Dysport®) treatment of hip adductor spasticity in multiple sclerosis: a prospective, randomised, double blind, placebo controlled, dose ranging study, 707
Botulinum toxin in muscle spasticity: *commentary,* 689
**SPECT,** Hashimoto's encephalopathy presenting as "myxoedematous madness": *letter,* 102
**spectroscopy,** Lesion heterogeneity in multiple sclerosis: a study of the relations between appearances on T1 weighted images, T1 relaxation times, and metabolite concentrations, 627
**spina bifida,** Cognitive changes after cerebrospinal fluid shunting in young adults with spina bifida and assumed arrested hydrocephalus, 615
Link between the CSF shunt and achievement in adults with spina bifida: *correspondence,* 800
**spinal,** Recanalisation of spinal dural arteriovenous fistula after successful embolisation, 792
**spinal accessory,** Spinal accessory neuropathy and internal jugular thrombosis after carotid endarterectomy: *letter,* 111
**spinal cord,** Intracranial dural fistula as a cause of diffuse MRI enhancement of the cervical spinal cord: *correspondence,* 799
**spinal cord compression,** An arachnoid cyst presenting as an intramedullary tumour, 508
Hypertrophic atlantoaxial ligaments: an unusual cause of compression of the upper spinal cord: *letter,* 116
**spinal cord injury,** Modulation of single motor unit discharges using magnetic stimulation of the motor cortex in incomplete spinal cord injury, 516
**spinocerebellar ataxia type 7,** Morphological abnormalities of hepatic mitochondria in two patients with spinocerebellar ataxia type 7: *letter,* 393
**spondylosis,** Hypertrophic atlantoaxial ligaments: an unusual cause of compression of the upper spinal cord: *letter,* 116
**steroid therapy,** A case of inclusion body myositis with benign monoclonal gammopathy successfully responding to repeated immunoabsorption, 230
**stretch reflex,** Monitoring of head injury by myotatic reflex evaluation, 581
**striatum,** Pattern of dopaminergic loss in the striatum of humans with parkinsonism induced by MPTP: *editorial,* 276
**stroke,** Age specific prevalence of impairment and disability relating to hemiplegic stroke in the Hai District of northern Tanzania, 744
Clinical evaluation of patients with stroke is still worthwhile: *commentary,* 547
Emotional outcomes after stroke: factors associated with poor outcome, 47
Is transcranial colour Duplex flow imaging of use in selection of patients with acute stroke for thrombolysis?, 794
Transcranial Doppler sonography in acute stroke: *letter,* 536
Value of somatosensory and motor evoked potentials in predicting arm recovery after a stroke, 323
**stroke rehabilitation,** The London handicap scale: a re-evaluation of its validity using standard scoring and simple summation, 365
**subarachnoid haemorrhage,** Detection of intracranial aneurysms with unenhanced and echo contrast enhanced transcranial power Doppler, 489
Intraoperative microvascular Doppler ultrasonography in cerebral aneurysm surgery, 29
The notion of "warning leaks" in subarachnoid haemorrhage: are such patients in fact admitted with a rebleed?, 332
**subdural haematoma,** Cervical subdural haematoma, 245
**subependymal giant cell astrocytoma,** Early diagnosis of subependymal giant cell astrocytoma in children with tuberous sclerosis: *letter,* 117
**sub-Saharan Africa,** Age specific prevalence of impairment and disability relating to hemiplegic stroke in the Hai District of northern Tanzania, 744
**subthalamic nucleus,** Axial parkinsonian symptoms can be improved: the role of levodopa and bilateral subthalamic stimulation, 595
High frequency stimulation of the subthalamic nucleus and levodopa induced dyskinesias in Parkinson's disease: *letter,* 121
Improvement of memory guided saccades in parkinsonian patients by high frequency subthalamic nucleus stimulation, 381
**sudden death,** Sudden unexpected death in epilepsy: a series of witnessed deaths, 211
**sudden unexplained death in epilepsy,** Epileptic cardiac asystole: *letter,* 108
**sural nerve,** Chronic inflammatory demyelinating polyneuropathy as a complication of cat scratch disease: *letter,* 797
Clinical syndromes associated with tomacula or myelin swellings in sural nerve biopsies, 483
**surgery,** Cognitive changes after cerebrospinal fluid shunting in young adults with spina bifida and assumed arrested hydrocephalus, 615
Functional outcome and quality of life after angiography and operation for unruptured intracranial aneurysms, 571
**surgical therapy,** When does the patient with a disc herniation undergo lumbosacral discectomy?, 75
**survival,** Predicting survival using simple clinical variables: a case study in traumatic brain injury: *correspondence,* 396
**susceptibility,** No association between the APOE ε4 allele and outcome and susceptibility in primary progressive multiple sclerosis: *letter,* 532
**swallowing,** A giant carotid aneurysm preventing correct swallowing , 678
**α-synuclein** Accumulation of NACP/α-synuclein in Lewy body disease and multiple system atrophy, 605
**syringomeylia,** Cervical syringomyelia at the C7-C8 level presenting with bilateral scapular winging: *letter,* 394
**syringomyelia,** An arachnoid cyst presenting as an intramedullary tumour, 508
**systemic immune-mediated diseases,** Brain involvement in systemic immune mediated diseases: magnetic resonance and magnetisation transfer imaging study, 170
**systemic lupus erythematosus,** Transverse myelopathy, a rare complication of mixed connective tissue disease: comparison with SLE related transverse myelopathy: *letter,* 532

**T1,** Lesion heterogeneity in multiple sclerosis: a study of the relations between appearances on T1 weighted images, T1 relaxation times, and metabolite concentrations, 627
**tardive,** Tardive and idiopathic oromandibular dystonia: a clinical comparison, 186
**temporal lobectomy,** Psychiatric aspects of temporal lobe epilepsy before and after anterior temporal lobectomy, 53

**test behaviour,** Frontotemporal dementia and neuropsychology: the value of missing values, **726**
**thalamus,** Diencephalic amnesia and apraxia after left thalamic infarction: *letter,* **248**
Fatal familial insomnia: clinical, neuropathological, and genetic description of a Spanish family, **774**
**thoracic spine,** An arachnoid cyst presenting as an intramedullary tumour, **508**
**thrombolysis,** Is transcranial colour Duplex flow imaging of use in selection of patients with acute stroke for thrombolysis?, **794**
**timing of surgery,** Complications and outcome in patients with aneurysmal subarachnoid haemorrhage: a prospective hospital based cohort study in The Netherlands, **337**
**α-tocopherol transfer protein** Postmortem study of ataxia with retinitis pigmentosa by mutation of the α-tocopherol transfer protein gene, **521**
**toluene,** Toluene induced postural tremor: *letter,* **117**
**tomaculous neuropathy,** Respiratory insufficiency in a patient with hereditary neuropathy with liability to pressure palsy: *letter,* **110**
**tonsil biopsy,** New variant Creutzfeldt-Jakob disease: three case reports from Leicestershire, **375**
**Tourette's syndrome,** Adult onset tic disorders, **738**
**transcallosal inhibition,** Conduction deficits of callosal fibres in early multiple sclerosis, **633**
**transcranial Doppler ultrasongraphy,** Transcranial Doppler sonography in acute stroke: *letter,* **536**
**transcranial power Doppler,** Detection of intracranial aneurysms with unenhanced and echo contrast enhanced transcranial power Doppler, **489**
**transfer,** Snapshot view of emergency neurosurgical head injury care in Great Britain and Ireland, **8**
**transfer factor,** Acute multifocal cerebral white matter lesions during transfer factor therapy: *letter,* **114**
**transient ischaemic attack,** Crying spells as symptoms of a transient ischaemic attack: *letter,* **537**
**transverse myelopathy,** Transverse myelopathy, a rare complication of mixed connective tissue disease: comparison with SLE related transverse myelopathy: *letter,* **532**
Transverse myelopathy in the antiphospholipid antibody syndrome: pinworm infestation as a trigger?: *letter,* **249**
**traumatic brain injury,** Predicting survival using simple clinical variables: a case study in traumatic brain injury: *correspondence,* **396**
**trazodone,** Coma in a patient with Alzheimer's disease taking low dose trazodone and ginkgo biloba: *letter,* **679**
**treatment,** Treatment with intravenous prednisone and immunoglobulin in a case of progressive encephalomyelitis with rigidity: *letter,* **395**
**treatment trials,** Disability outcome measures in therapeutic trials of relapsing-remitting multiple sclerosis: effects of heterogeneity of disease course in placebo cohorts, **450**
**tremor,** Evaluation of three different ways of assessing tremor in multiple sclerosis, **756**
**trigeminal neuralgia,** Microvascular decompression for trigeminal neuralgia: comments on a series of 250 cases, including 10 patients with multiple sclerosis, **59**
**trigeminal neuropathy,** Trigeminal sensory neuropathy: anatomicophysiological correlation: *letter,* **390**
**tropical areas,** HTLV-1 and HIV infections of the central nervous system in tropical areas, **550**
**tropical disease,** Neurological aspects of tropical disease: *editorial,* **135**
**tubercular evoked potential,** Role of clinical, radiological, and neurophysiological changes in predicting the outcome of tuberculous meningitis: a multivariable analysis, **300**
**tuberculous meningitis,** Tuberculous meningitis: *review,* **289**
**tuberous sclerosis,** Early diagnosis of subependymal giant cell astrocytoma in children with tuberous sclerosis: *letter,* **117**

**unexplained symptoms,** Do medically unexplained symptoms matter? A prospective cohort study of 300 new referrals to neurology outpatient clinics, **207**
**urinary incontinence,** Urinary dysfunction and orthostatic hypotension in multiple system atrophy: which is the more common and earlier manifestation?, **65**
**urinary symptoms,** Assessment of voiding dysfunction in Parkinson's disease by the international prostate symptom score, **429**
**urodynamic study,** Urinary dysfunction and orthostatic hypotension in multiple system atrophy: which is the more common and earlier manifestation?, **65**

**vaccine,** "Can't you use another vaccine"? Postrabies vaccination encephalitis: *correspondence,* **798**
*Vasculitic neuropathies,* Vasculitic neuropathies: *editorial,* **271**
**vasculitic neuropathy,** Vasculitic neuropathy in a patient with inactive treated lepromatous leprosy, **496**
**ventriculo-peritoneal shunt,** Alzheimer's disease comorbidity in normal pressure hydrocephalus: prevalence and shunt response, **778**
**vertebral artery dissection,** Vertebral artery dissection presenting as cerebellar infarction, **98**
**vertigo,** Assessment and treatment of dizziness: *editorial,* **129**
**visual fields,** Epilepsy surgery, visual fields, and driving: a study of the visual field criteria for driving in patients after temporal lobe epilepsy surgery with a comparison of Goldmann and Esterman perimetry, **80**
Epilepsy surgery, visual fields, and driving: *commentary,* **6**
**visual recovery,** Recovery from optic neuritis is associated with a change in the distribution of cerebral response to visual stimulation: a functional magnetic resonance imaging study, **441**
**visual system,** Radiologically selective visual pathway involvement in adult onset cerebral adrenoleukodystrophy: *letter,* **249**
**vitamin E,** Postmortem study of ataxia with retinitis pigmentosa by mutation of the α-tocopherol transfer protein gene, **521**
**voiding dysfunction,** Assessment of voiding dysfunction in Parkinson's disease by the international prostate symptom score, **429**
**voxel based morphometry,** Reduction of frontal neocortical grey matter associated with affective aggression in patients with temporal lobe epilepsy: an objective voxel by voxel analysis of automatically segmented MRI, **162**

**Wallenberg's syndrome,** Wallenberg's syndrome, **570**
**warning headache,** The notion of "warning leaks" in subarachnoid haemorrhage: are such patients in fact admitted with a rebleed?, **332**
**western blot,** HIV antibody profiles in serum and CSF of patients with neurological disease can serve as predictors of outcome, **86**
**Whipple's disease,** Neurology of Whipple's disease: *editorial,* **2**
**white matter,** In vivo investigation of white matter pathology in schizophrenia with magnetisation transfer imaging, **70**
**white matter disease,** Affective behavioural disturbances in Alzheimer's disease and ischaemic vascular disease, **41**
**witnessed,** Sudden unexpected death in epilepsy: a series of witnessed deaths, **211**
